

Empowering Young People's 21st Century Skills

Blended mobility in CEBANC 6 – 10 October, 2025

Hosted by **CEBANC**, this five-day event brought together **35 participants**—teachers and students from five partner countries.

The goal was to **test, refine, and co-create** media literacy materials that strengthen digital and 21st-century competences.

Key moments:

- Expert keynote on “Human Algorithms” by **Veronica Vietes**
- Collaborative module development and feedback sessions
- Joint social media campaign by students
- Planning of next steps for the **LTTA in Slovenia**

Outcome:

Refined learning materials, strengthened teamwork, and a clear roadmap for continued curriculum development.

EfVET Conference workshop, Fatima, Portugal

23 October, 2025

At the European Forum of Technical and Vocational Education and Training, **SOSU** and **CEBANC** led a workshop titled:

🧠 “Empowering young people's 21st century skills for improved digital media literacy and AI understanding.”

The workshop explored how to integrate **digital literacy**, **critical thinking**, and **social skills** to help young people navigate the AI-driven digital world.

Participants' strong engagement highlighted the **relevance and impact** of the project's focus.

Project Dissemination Day – Bilbao, Spain 10 April 2025

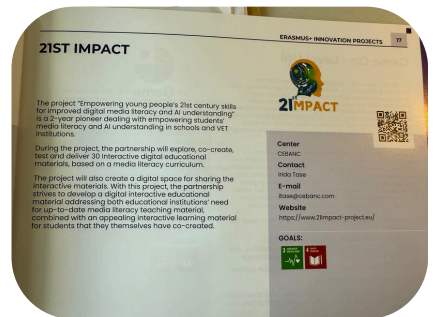

Organized by **Tknika**, the Basque Centre for Research and Applied Innovation in VET, this event gathered over **200 education professionals**.

CEBANC presented the 21ST IMPACT project, emphasizing the importance of **media literacy** in future vocational education curricula.

Result: Broader awareness of digital citizenship and international cooperation within the Erasmus+ framework.

💡 Key Takeaways

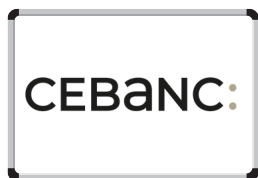

- Media literacy is becoming a **core component** of modern VET education.
- International collaboration fosters **innovation and shared learning**.
- The 21ST IMPACT project continues to **empower educators and students** to face digital and AI challenges with confidence.
